

ANANDHA KUMAR T

Hardware & Software Engineering Student

Thirumangalam, Tamil Nadu | 9600850252 | masteranand16@gmail.com

PROFESSIONAL SUMMARY

Motivated Hardware and Software Engineering student with hands-on experience in IoT project development, embedded systems, and Arduino-based prototyping. Skilled in C and Python programming, sensor integration, and robotics, with proven team-lead experience delivering functional hardware prototypes. Seeking opportunities to apply hardware programming and software development skills to real-world engineering problems.

EDUCATION

Bachelor of Engineering (B.E.)

Sethu Institute of Technology

- CGPA: 9.35 / 10 | Class XII: 93%

Expected 2028

INTERNSHIP EXPERIENCE

IoT Project Developer — e-Yanthra

1 Week

- Studied core IoT device architecture, communication protocols, and sensor-based systems
- Built and tested functional IoT project prototypes as part of a hands-on internship program
- Learned embedded hardware programming fundamentals using Arduino microcontrollers

PROJECTS

Smart Dustbin — IoT & Embedded Systems

Team Lead

- Led a team to design and build an automated smart dustbin using Arduino and ultrasonic sensors
- Programmed sensor logic in C to enable touchless, automated lid operation

Line Follower Robot — Robotics

Team Lead

- Directed a team to develop an autonomous line-following robot using Arduino and IR sensors
- Implemented sensor calibration and motor control logic for accurate path tracking

Gas Leakage Detection System — IoT Safety

Team Lead

- Led development of a real-time gas leak detection system using Arduino and gas sensors
- Designed alert logic to trigger warnings on detecting hazardous gas concentration levels

TECHNICAL SKILLS

- Programming Languages: C, Python
- IoT & Robotics: Hardware programming, IoT project integration, sensor systems
- Tools & Platforms: Arduino, Raspberry Pi (basic), GitHub (beginner), Figma
- Emerging Tools: App creation using Antigravity, Claude AI
- Languages Known: English, Tamil

CERTIFICATIONS & ACHIEVEMENTS

- Academic Star Award
- e-Yanthra Internship Certificate — IoT Project Development
- Winner — Code Debugging Competition

EXTRACURRICULAR ACTIVITIES

- Active member, NSS (National Service Scheme) Club
- Cricket player, demonstrating teamwork and discipline
- Developed leadership qualities through team-lead roles across multiple projects
